Operations Control Centre (OCC) Technician (f/m/d)

Deadline:
03-12-2026

Contact data:
Inese Legzdina-Gruzinska

Location:
DE - Emden

Launch your career in our modern Operations Control Centre (OCC) located directly at the Port of Emden and take on the exciting responsibility of operating and monitoring our onshore and offshore wind farms!

Your position

In your new position as an OCC Technician (f/m/d), you will become a valued member of our Operations Control Centre team, whose mission is to ensure the safe, reliable and smooth operation of offshore wind farms around the clock. By monitoring critical systems, coordinating operations and managing incidents, you will make a decisive contribution to a sustainable energy supply.

This is a full-time position based at our Operations Control Centre in Emden.

Your responsibilities

As an OCC Technician (f/m/d), you will be the first point of contact for fault notifications and the remote troubleshooting of wind turbines.

Your key responsibilities include but are not limited to:

- Monitoring and remotely operating offshore wind assets and surrounding infrastructure
- Carrying out authorized high-voltage switching operations in accordance with applicable procedures and reliably recording and forwarding operational data
- Monitoring the sea area surrounding the offshore wind farms
- Communicating with marine vessels via maritime radio to ensure navigational safety
- Coordinating offshore personnel transfers and liaising with helicopter pilots and other relevant stakeholders
- Responding to operational emergencies and coordinating incident management activities
- Maintaining accurate operational records and incident reports for smooth 24/7 handovers
- Contributing to continuous improvement activities and process optimization and opportunities to increase automation

Your profile

We are looking for a responsible and reliable person who is passionate about monitoring and controlling offshore wind farm operations.

Ideally, you bring the following qualifications and experience:

- Completed technical vocational training, for example as a certified technician or master craftsperson, or a comparable qualification gained through several years of professional experience in a technical field
- Practical experience in troubleshooting and maintaining industrial plants
- Knowledge of the relevant technical processes
- Willingness to learn new technologies and operational processes
- Basic knowledge of SCADA systems, industrial automation and/or remote monitoring tools is an advantage
- Willingness and ability to work in a flexible 24/7 shift system
- A high level of personal responsibility and an independent, solution-oriented approach to work
- Strong communication skills in German and English, at least at B2 level

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,300 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever, pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

We know that our people are our greatest strength. We strive to build an inclusive workplace where everyone can be themselves, contribute their perspectives, and feel part of the team. We welcome applicants from all backgrounds and believe that diverse teams help us find better solutions and move the energy transition forward.

Care to join the movement?

Change. With us.
