

Data Analyst – Business Improvement

Do you want to be a part of a dedicated team working with Business Improvements across of Semco Maritime? Do you have a solid understanding of data, and do you have what it takes to match this with business needs? Do you want to work in a dynamic organizational setting, where every day is different? If so, we want to hear from you!

Your position

In your new position as Data Analyst in the Business Improvement department, you will be a valuable member of a dynamic team working with business improvements through digital transformation. You will work closely together with the business and develop needed digital improvements supporting Semco's growth strategy.

Your place of work will be in Esbjerg, Denmark. The position is full-time, and you can expect Attendance at our office in Esbjerg on daily basis.

We are a team where a mindset for continuous improvement and optimization are key. As well as being agile towards supporting the business needs.

Your tasks & responsibilities

As a Data Analyst, you will be part of a team developing the needed digital data tools supporting Semco Maritime growth.

Your tasks will include but are not limited to:

- Support the organization with ad-hoc data analyses
- Operational automation of manual workflows
- Management of individual stakeholder needs
- Maintenance of existing portfolio of solutions

Your profile & qualifications

We are looking for a newly graduated with relevant education, with solid understanding of data. It will be beneficial if you have knowledge of the entire Microsoft Power Platform like Power BI, Power apps, Power Automate etc.

You have a great overview, the ability to see the big picture, a structured approach, and are a team player.

You find it easy to work independently and take the initiative. You have drive and are motivated by a fast-track environment. You have a positive mindset and care deeply about the success of your work, your colleagues and the wider objectives set by the organization. You are able to communicate with others on a good and efficient basis and engage in the development of the department.

We expect you to have excellent written and verbal communication skills in Danish and English. Technical Skills Knowledge of or basic understanding of concepts relating to the Microsoft power platform

MS Power Platform

- MS Power Automate – Not mandatory, but beneficial
- MS Power BI – Intermediate or above average.
- MS Power Apps

Other relevant skills

- SQL – basic
- Excel incl. Power Query and VBA Coding

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

Change. With us.
