

Engineering Specialist for Consultancy Services

Would you like to be in a dynamic company where you aren't just a piece of the puzzle – but you do the puzzle? Then come join our Consultancy Service Team.

Your position

You will join our team of engineers and specialists dedicated to delivering our best support to our clients within the Energy Industry and helping them to achieve their goals.

“Joining our team means not only being part of an exciting project but also shaping its success. As we establish our new Consultant Services department, your expertise will be instrumental in setting the standards and making a tangible impact on our journey towards driving real change,”

- Bo Jespersen, Senior Manager, Consulting Services.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

The set-up

Your place of work will mainly be at our customers with a base at our Global HQ located in Esbjerg or at one of our locations in Copenhagen, Norway, Poland or UK.

You will preferably be hired on a full-time, with the option of a time limited contract and work independently or in a team dedicated to one of our national or international customers.

Our positions are primarily onshore, and some travel activities can be expected, either-or between our locations or at our customers.

Your role in the team

We are currently receiving requests mainly within the Energy Sector and therefore looking for candidates with expertise and competences in all project phases from early studies, FEED's, through design, fabrication, installation and commissioning to handover of the customer projects, with one or more of the following disciplines:

- Project Management: Commercial Technical Site
- Project Coordinator
- Planner: Project Site Production
- Controller: Project Document
- Electrical Engineering: LV/MV/HV Instrumentation Automation SCADA
- Mechanical Engineering: Design Structural Piping
- Process Engineering: Chemical P&ID Instrumentation Piping
- Heating, Ventilation, and Air Conditioning (HVAC)
- Health, Safety, and Environment (HSE)

Your profile & qualifications

We are seeking experienced, results-driven candidates ready to grow their careers while delivering excellent customer service. Candidates should be proactive problem solvers with strong organizational skills and a passion for interdisciplinary collaboration and project delivery.

To succeed in our team, we imagine that you have:

- A bachelor's or master's degree in engineering
- 3+ years of experience within the Energy Sector
- Experience with large and midsize projects
- Experience from consultancy companies will be preferred
- A good team player with cross-cultural skills and proactive mindset
- Excellent in stakeholder management
- Experience with working with Scandinavian stakeholders will be a plus for all the positions
- Knowledge of Industry standards for example from the Oil & Gas Industry
- Excellent verbal and written English communication skills at a professional level.
- Knowledge of safety standards relevant to engineering

Procedure

Interviews will be conducted on an ongoing basis to meet client needs. If you have any questions, please feel free to contact Senior Manager Bo Jespersen at +45 30166785

or boj@semcomaritime.com

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,300 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

Change. With us.
