

# Technical Project Manager

*Are you an expert in leading complex projects in the offshore rig and marine industry? At Semco Maritime, we're looking for a seasoned Technical Project Manager who is driven by innovation, excellence, and the successful delivery of turn-key engineering and service projects. If you're ready to steer projects that shape the future of global energy solutions, join us in this pivotal role.*

## **Your position**

As a Technical Project Manager within our Rig & Marine division, you will take charge of comprehensive engineering projects from conception through to execution. This role is designed for a leader with a robust background in project management, ready to guide our teams and exceed our technical and commercial goals.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your place of work will be our location by the seafront in Esbjerg.

## **Your tasks & responsibilities**

You will be responsible for all things related to the management of turn-key engineering and service projects mainly related to technical or commercial development projects within the offshore rig and marine industry.

Your tasks will include but are not limited to:

- Being responsible for project teams
- Project planning, coordination, and execution
- Taking the lead in concepts, reviews and approval activities
- Sales work and preparing tender material
- Managing the whole project process from the tender phase all the way to fabrication and testing
- Ensuring projects are delivered on time, within scope, and on budget.

## **Your profile & qualifications**

As a person you are outgoing, you enjoy communicating with people and building lasting relations. You want to create results and have your eyes on the target, while inspiring the people in your team.

To succeed in this position, we expect that you:

- Possess strong technical and commercial acumen
- Have a technical background – preferably within electrical engineering
- Possess great communication skills in English, proficiency in Danish is beneficial
- Proven track record in project management within the offshore or marine industry, demonstrating your capability to handle complex, high-stakes projects.

## **Welcome to Semco Maritime**

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2.500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

## **Care to join the movement?**

**Change. With us.**
