

# Student Assistant - Site Operation, Renewables

## Division Aalborg

Are you an ambitious and motivated student eager to gain hands-on experience within offshore renewables and large-scale construction projects? Join Semco Maritime and become part of the green energy transition.

### Your position

As a Student Assistant in the Renewables Division, you will be part of our Site Operations team at our office in Aalborg. The team supports offshore renewable projects by ensuring effective coordination, structured processes, and smooth daily operations on sites around the world. In this role, you will work closely with site management and operational stakeholders, supporting planning, coordination, documentation, and continuous improvement initiatives in a dynamic project environment.

At Semco Maritime, safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while supporting innovative and sustainable solutions across our projects.

Your place of work will be at our Office in Aalborg, where you will work part-time alongside your studies. Working hours will be agreed individually to ensure flexibility and a good balance between work and university commitments. Expected 25 hours a week

### Your tasks & responsibilities

As a Student Assistant in Site Operations, your responsibilities will include, but are not limited to:

- Provide administrative support to the management team, including handling ad-hoc tasks and documentation.
- Assist in daily operations and strategic initiatives, contributing to both short-term and long-term projects.
- Support recruitment activities, such as scheduling interviews and coordinating hiring processes.
- Help develop and maintain standards and guidelines to improve consistency and efficiency across the team.
- Collaborate on management projects, offering research, analysis, and organizational assistance as needed.

### Your profile & qualifications

We are looking for a proactive and curious student who enjoys working in a structured environment and collaborating across teams and disciplines. You have an interest in renewable energy projects and large-scale construction environments.

To succeed in this position, we imagine that you have:

- Enrollment in a bachelor's or master's degree, preferably within business management, operations management, process optimization, or a related field
- Fluency in written and verbal English
- Strong communication and collaboration skills
- A flexible, responsible, and collaborative mindset with a strong focus on safety

### Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,400 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

So yes, working for us will change the energy sector – and may well change you too.

### Care to join the movement?

#### Change. With us.

We conduct our interviews on an ongoing basis, so if you are interested, please submit your application as soon as possible via the link on the page.

Let's drive change together. Apply today to leave your mark on the global energy industry.
