

# Project Manager, Service

*Do you have a track record of delivering excellent results as a responsible and ambitious leader? Are you passionate about technology and the energy industry, and do you have the desire to make a real difference? Then you are the one we are looking for to join us as our new Project Manager!*

## **Your position**

As the Project Manager within our Technology Solutions division, you will be responsible for managing and supporting the operational activities of our Service department. Your main focus will be to ensure the high-quality delivery of specialized telecommunication and firefighting services to Oil & Gas and Renewable energy clients across the globe.

You will be working with a team of dedicated Service Engineers who are experts in their field and share your passion for excellence. Together, you will have a significant impact on the safety and success of global projects that meet the world's increasing energy demand.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your place of work will be at our Global HQ in Esbjerg by the seafront, with one of the best views in the city. The position is full-time, and the annual travel days range from 10-30 days.

*"As the Project Manager, you'll be part of a dynamic and innovative team that is committed to providing the best possible service to clients worldwide. You'll have the opportunity to unfold your leadership skills and make a real impact on the success of our projects,"* says Adrian Marcel Rozsondai, Director of P&T Service.

## **Your tasks & responsibilities**

Your main area of responsibility will be to oversee project management and commissioning as well as the tender activities. In addition, you will utilize your excellent stakeholder management skills to effectively assign clear roles and responsibilities across various departments and teams.

Your tasks will include but are not limited to:

- Manage commissioning and service projects
- Tendering for service projects
- Communicate effectively with external and internal stakeholders
- Organize and participate in client meetings
- Define the scope and strategic direction of projects, working closely with clients and internal teams to ensure alignment with requirements and business needs
- Create detailed project management plans, budgets, and other documents
- Assign, prioritize and supervise project tasks and their completion

## **Your profile & qualifications**

As a person, we imagine that you are someone with strong leadership skills and a great commercial and strategic mindset. You are a responsible leader who actively collaborates with your team through clear communication. Nonetheless, you are driven by a high ambition level and motivated to surpass expectations by striving to achieve the best possible results.

To succeed in this position, we expect that you have the following qualifications:

- A relevant educational background
- Experience with complex Service Projects, Project Management and Stakeholder Management
- Excellent leadership and communication skills
- Fluency in English, verbal and written

## **Welcome to Semco Maritime**

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2.500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

## **Care to join the movement?**

### **Change. With us.**

We conduct our interviews on an ongoing basis, so if you are interested, you must submit your application as soon as possible via the link on the page.
