

Project Planner, Rig & Marine

Are you structured, analytical and passionate about optimization, planning and project management? Do you enjoy working in close collaboration with a dynamic production environment? Then this is your chance. Join us!

Your position

In your new position as Project Planner in the Rig & Marine division, you will be a valuable member of the project team who give input and support to tasks within yard stays, offshore work, rigs and special vessels. As Project Planner, you will work closely with our production environment, giving you the opportunity to apply your structured approach and analytical skills to develop and maintain project schedules, monitor progress, analyze data, and prepare reports – all to help ensure the success of our projects.

Above all, your work will make a real difference in meeting the world's growing energy demand.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your place of work will be at our Global HQ located in Esbjerg, the hub of the Danish energy industry, right on the waterfront – views do not get any better than this. The position is full-time, and you can expect to travel 0-30 days per year.

Your tasks & responsibilities

As a Project Planner, you will be responsible for planning and scheduling activities throughout the whole project portfolio.

Your tasks will include but are not limited to:

- Directing master schedulers on projects
- Preparing schedule data for tender proposals, contract negotiations and weekly/monthly progress updates once the project has been awarded.
- Updating project progress
- Generating S-curves in MS Projects and Primavera
- Supporting project managers
- Maintaining processes in project management.

Your profile & qualifications

We are looking for an analytical and organized candidate who is passionate about project planning and wants to leave their mark on it. You are curious about the practical aspects of the projects and are eager to observe and engage with the projects on-site.

To succeed in this position, we imagine that you have:

- A curiosity for gaining practical knowledge of the projects
- The ideal candidate has a technical background and previously experience within a production environment
- A relevant educational background or equivalent practical experience
- 3+ years' experience as a Project Planner
- Proficiency in MS Excel
- Excellent communication skills and fluency in English.

Due to the holiday period, longer case processing times should be expected

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector.

With us, you will join a community of over 2,500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too

Care to join the movement?

Change. With us.
