

# Site Manager

*Do you have a technical background, and do you want to work with leadership, planning and coordination on site? Or do you already have experience from working as a site manager and are you looking for your next career opportunity? Then you are the one we are looking for!*

## Your position

As our new Site Manager, you will be joining our Renewables Division where we handle several large-scale multidiscipline projects. You will be working from our Site in Aalborg. You will report directly to the Construction Manager who is responsible for the overall site.

We expect the activities on-site to begin during December / January, but we expect you to start as soon as possible to begin onboarding and training. This position is open to being a contracted position as a project hire with the duration of the project, or a permanent position depending on the candidate.

*"As a member of our team, you'll be working alongside a close-knit group of dedicated people who are at the forefront of the green energy transition. You'll have the exciting opportunity to work with large-scale, specialized engineered platforms, and our focus on quality and safety is unmatched,"* - says Peter Carlsen, Director, Site Operations

## Your tasks & responsibilities

Your primary responsibilities will be planning, coordinating and managing daily site activities, and together with your team of site engineers, supervisors and foremen you will lead 80-100 blue collar workers daily.

Your tasks will include but are not limited to:

- Ensuring that the project activities adhere to the schedule and activities are planned accordingly
- Supporting the Construction Manager for the site with HSE management
- Overseeing the timely delivery of materials and coordination with vendors
- Updating job package progress and schedule
- Resource planning
- Run daily planning meetings

## Your profile & qualifications

As Site Manager on our large-scale projects we expect you to have a technical interest and background and that you have several years of experience in site Management preferably from the renewable energy sector such as offshore Wind or Power Plants.

It is at the same time crucial for you to succeed in this role, that you have excellent skills in working with people from many different backgrounds and enjoy creating and contributing to a good working environment and that you manage to inspire and motivate your team and show flexibility to adapt to changing project conditions.

To succeed in this position, we also expect that you have the following qualifications:

- Have technical knowledge (Electrical is an advantage)
- Possess good IT-skills
- Have a proven track record within team management – either through project management and/or Team Lead roles.
- Strong interpersonal and communication skills to collaborate with diverse stakeholders and effectively convey project updates and objectives.
- Have experience from working on construction sites
- Preferably have some practical experience
- A decent level of English, since we are working with many nationalities on site, and have a US customer

## Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global

energy landscape.

While everyone knows why the energy transition is vital, we are concerned with the journey. How to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

**Change. With us.**

We conduct our interviews on an ongoing basis, so if you are interested, do not hesitate to submit your application as soon as possible via the link on the page.
