

Project Controller

Do you thrive on keeping the overview in a project and ensure the project team knows the financial status ongoing? Are you detailed when analysing and able to see things in the bigger perspective? Then this might be the right match for you!

Your position

The role of a Project Controller is to be a sparring partner for both the project team and management. The project controller will be a key player in improving controlling tools for both internal and external reporting of cost. The goal is to increase the standardisation of cost reporting. You will be part of the Rig & Offshore Marine department with 75 colleagues working locally and globally on the projects in our division.

Your tasks and responsibilities

The job of the Project Controller is to manage and control all financial transactions across the different disciplines within the allocated department(s) and during projects, to have the financial overview of the project and be able to communicate this to both project management and management. This applies to all phases of the project.

Your tasks will include but are not limited to:

- Controlling and review of tendering material prepared by the bid team and project managers
- Review of contract and PO from Clients - understand the aspects affecting the projects economics
- Controlling of actuals, budgets, forecast and variations
- Control and verify the project costs through all phases of a project - in close cooperation with project manager, construction manager and discipline leads
- Daily to weekly reporting of finances to project manager, i.e., cash flow, hours spent, procurement, or used cost compared to budget

Your qualifications and skills

You have a systematic and analytical approach to your tasks which supports you to meet deadlines. You enjoy working independently and still being part of a team. You take initiative and can ensure that you receive the information you need. You are motivated to create continuous improvement. Being part of the solution to make controlling even better!

To succeed in this position, we expect that you have:

- MSc. in controlling or finance
- Excellent skills in MS Excel
- 2-3 years of experience with controlling, preferably from a project business
- Solid communication skills, and English at a high level

Welcome to Semco Maritime

We offer you an interesting and challenging job in an international organization, where we strive to provide innovative and sustainable solutions. You will get the unique opportunity to work in an environment characterized by dedication, passion and ambition.

In Semco Maritime we care for our employees and aim to be a desirable workplace. We want to be known for our initiative and commitment. We offer personal and professional development in a division with a positive attitude and where people thrive working in an agile work environment.

The position is full time and is located at our yard at Hanøytangen. You should expect up to 10-20 travel days for work annually.

We conduct our interviews on an ongoing basis, so if you are interested, you must submit your application as soon as possible via the link on the page.

If you have any questions, you are welcome to contact Senior Director Business Controlling, Jannie Schack Nielsen, on +45 79 14 96 91.

We look forward to hearing from you!
