

Project Engineer - Wind Service

Do you want to drive documentation and quality assurance for the green energy transition? Are you an experienced and detail-oriented Project Engineer who wants to leave your mark on the global energy industry? If so, we want to hear from you!

Your position

In your new position as Project Engineer in the Wind Service division, you will be a valuable member of the dedicated Project Execution & QA Team, whose mission is to ensure high-quality documentation and compliance in offshore wind projects. You will have the chance to shape and improve our project documentation processes and contribute directly to safety and quality standards in the green energy sector.

At Semco Maritime, safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your place of work will be at our Global HQ located in Esbjerg, the hub of the Danish energy industry, right on the waterfront – views do not get any better than this. The position is full-time, and you can expect to travel 20–30 days per year.

“As Project Engineer for Documentation Excellence and Quality Assurance, you’ll play a really important role in how we deliver our service to customers. In your work, you’ll help make sure everything—from the preparation phase to execution—is done to the highest standard. You’ll be part of a motivated and innovative team, working closely with the service project team and the wider service organization, all focused on giving our clients the best possible experience,” says Klaus Iversen Grau, Senior Manager, Service Projects.

Your tasks & responsibilities

As a Project Engineer, you will be responsible for managing and improving documentation and quality processes throughout project lifecycles.

Your tasks will include but are not limited to:

- Establishing, maintaining, and controlling project documentation in line with standards and client requirements
- Supporting project teams with technical documentation and compliance reporting
- Coordinating internal and external reviews of documents and quality procedures
- Performing quality assurance checks and supporting compliance with safety regulations
- Supporting and adhering to health, safety, and environmental standards in all activities

Your profile & qualifications

We are looking for a structured and collaborative engineer who is passionate about documentation, compliance, and quality management. You have a proactive and process-oriented approach to your work and are eager to contribute to the green energy transition.

To succeed in this position, we imagine that you have:

- Solid experience with document control, quality assurance, or project engineering
- Knowledge of ISO standards and QA/QC procedures
- A technical or engineering background – preferably within offshore wind or another regulated industry
- Excellent communication skills in English, both written and spoken
- The ability to work effectively in international and cross-functional teams

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector.

With us, you will join a community of over 2.500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

Change. With us.
