

# Commissioning Manager

*Do you want to be a part of managing and developing some of the largest Offshore Projects? Are you passionate about leading high-performance teams ensuring that you are delivering the best results? Then you have found the perfect match!*

## Your position

As our new Commissioning Manager at Semco Maritime, you will join our Renewables division that has created one of the world's largest project portfolios for offshore substations, with activities spanning across Europe, Asia and the USA. Your role will be pivotal in driving the growth of our offshore wind business, as you will be responsible for overseeing all processes within the Commissioning team.

You will report directly to the Construction Manager, who holds overall site responsibility.

*"As a member of our team, you'll be working alongside a close-knit group of dedicated people who are at the forefront of the green energy transition. You'll have the exciting opportunity to work with large-scale, specialized engineered platforms, and our focus on quality and safety is unmatched,"*- says Peter Carlsen, Director, Site Operations

## Your tasks & responsibilities

You will be responsible for providing of the commissioning philosophy to all team members and controlling quality to be maintained at all stages including planning, monitoring, measuring equipment and documenting of all the activities.

Your tasks will include but are not limited to:

- Mechanical completion planning in cooperation with the Construction Manager
- Weekly coordination with Sub-contractors, clients, and internal departments
- Preparing and controlling mechanical completion activities
- Commissioning planning and allocation of resources to the specific tasks
- Ensuring mechanical completion and tests are documented and handled within our documentation systems.
- Controlling Lock Out Tag Out
- Controlling and planning HAT- tests
- Overseeing quality and timely delivery of project specific test procedures
- Monitoring and participating in the commissioning activities with the commissioning team.
- Keep track of handover in between onshore- and offshore commissioning
- Drive the offshore commissioning scope of the OSS and TOC process together with the Construction Manager

## Your profile

As a person we expect that you are reliable and trusted by the people you work with. You are passionate about building high performance project teams who can deliver great results. You possess a great time management skill with solution-oriented approach as well as great interpersonal skills. Working under tight schedule is not a problem for you, because you are always open to the new challenges!

To succeed in this position, we expect that you have the following qualifications:

- Engineering degree or similar
- Commissioning Management experience
- High HSE mindset
- Fluency in written and verbal English and flair for IT
- Project Management and strong Communication skills

## Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

**Change. With us.**

We conduct our interviews on an ongoing basis, so if you are interested, do not hesitate to submit your application as soon as possible via the link on the page.
