

Senior Project Manager, Transitional Energies

Are you a seasoned Project Manager with a track record of successfully leading large-scale projects within the energy sector? Do you possess a blend of strong leadership skills and a strategic commercial mindset? If you are ready to make a significant impact on the global energy industry, we have the perfect opportunity for you at Semco Maritime.

Your Position:

Join our Transitional Energies division as a Senior Project Manager and become part of a dedicated team at the forefront of the energy transition. You will lead complex, large-scale projects across conventional and emerging energy sectors, driving innovation and excellence in project execution.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your base will be at our global headquarters in Esbjerg, a pivotal hub in Denmark's energy industry. This full-time position includes up to 20 travel days per year, offering stunning waterfront views and a vibrant working environment.

Your Tasks & Responsibilities:

- Take full ownership of significant large-scale projects from inception to completion.
- Provide inspiring leadership, defining clear roles and responsibilities for your project teams.
- Ensure projects are delivered on time, within budget, and to the highest quality standards.
- Facilitate steering committees, support tender processes, and engage in contract negotiations.
- Manage complex project budgets, maintaining strict accountability for all project activities.
- Uphold our strong safety culture by adhering to rigorous health, safety, and environmental standards.

Your Profile & Qualifications:

We are seeking a proactive, organized Senior Project Manager who excels in a multidisciplinary technical environment and is driven to achieve outstanding results. You should be a strategic thinker with exceptional communication and leadership skills, capable of motivating diverse teams.

- A technical or engineering background.
- Extensive experience managing large-scale projects, particularly in the energy sector and ideally with projects covering electromechanical and civil works.
- Strong experience in client relations, stakeholder management, and navigating complex tender processes.
- Relevant project management certifications (e.g., PMP, PRINCE2).
- Deep familiarity with both offshore and onshore energy projects.
- Comprehensive knowledge of industry-specific safety standards.

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2.500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows *why* the energy transition is vital, we are concerned with the journey. *How* to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

Change. With us.
