

Lead Project Planner

Are you an experienced, analytical and motivated Lead Project Planner with a passion for the global energy transition? Do you thrive on playing a key role in project success and making a real impact? If so, we want to hear from you!

Your position

In your new role as Lead Project Planner in the Rig & Marine division, you will play a leading role in ensuring the successful planning and execution of key projects. You will also serve as an active sparring partner for Senior Project Managers, driving alignment and execution excellence.

At Semco Maritime safety is a core value, and in this role, you will contribute to maintaining and promoting a strong safety culture while delivering innovative solutions. Above all, your work will make a real change for the global energy sector.

Your role will be central in leading our activities, offering an exciting opportunity to shape the future of building complex projects.

This key position requires some travel, typically ranging from 0 to 10 days, depending on client and partner locations. Your primary workplace will be at our yard facilities in Esbjerg, the hub of the Danish energy industry, situated right on the waterfront—where the views don't get any better.

Your tasks & responsibilities

As a Lead Project Planner, you will take on the responsibility in project scheduling and resource management, working closely with other key-stakeholders.

Your tasks will include, but are not limited to:

- Lead, develop and maintain comprehensive project schedules: Create detailed plans that outline project timelines, milestones, and deliverables, ensuring alignment with project scope and objectives.
- Coordinate with partners and work closely with stakeholders: to ensure effective collaboration and integration of resources and competencies.
- Monitor project progress: Regularly update project schedules and report on progress to the Project Director and relevant stakeholders, identifying potential risks and proposing mitigation strategies.
- Support financial management: Contribute to product costing, risk management, and contingency planning, ensuring projects remain within budget and financial targets are met.
- Facilitate communication: Organise and conduct regular status meetings to keep all stakeholders informed and aligned on project goals and timelines.

Your Profile & Qualifications

As a person, you are known for being proactive, reliable, and highly trusted by those you work with. You excel at building and maintaining strong professional relationships with both internal and external

stakeholders. You have successfully navigated highly complex projects that required a strategic mindset and the ability to manage multiple stakeholders and tasks simultaneously.

To succeed in this position, we imagine that you have:

- Preferably, several years of experience from the Maritime industry.
- Thrive on building strong relations, exert influence when needed, and maintain trustworthiness.
- Possess a creative and innovative approach to problem-solving, with a keen attention to detail.
- Extensive experience with project planning tools such as Primavera or equivalent.
- Communication skills: Excellent verbal and written communication skills in English and Danish.

Welcome to Semco Maritime

At Semco Maritime, we create change. For people. For projects. And for the global energy sector. With us, you will join a community of over 2,500 of the most dedicated thinkers and doers in the energy industry who are driving real change and making their own personal mark on the global energy landscape.

While everyone knows why the energy transition is vital, we are concerned with the journey. How to get there. By providing the answers needed to make change real. Because we believe that global energy ambitions can only be realized through hard work and clever pragmatic solutions. This is what we do. This is what we invite you to participate in.

Safety is at the core of everything we do, and we are committed to protecting our people, partners, and the planet as we work towards a sustainable energy future.

So yes, working for us will change the energy sector – and may well change you too.

Care to join the movement?

Change. With us.
